ALL HAIL THE FALL FAIR! BEAMSVILLE FAIR SEPT. 8-9-10

This is the time of year when the advertising comes out for the goods and chattels of Ontario, bountiful proof of the wealth and goodness of the Canadian countryside. This is the month when the Fair makes their bid for publicity—all the county fairs and, of course, the greatest of all annual fairs the Exhibition in Toronto. Here, from all over the world are products of many countries, and to the great Toronto Fair the people flock by the thousands to witness the pageantry and splendor of its vast magnitude.

But it is the smaller, yet all important fall fairs of the smaller communities that have a color all their own. Here is the place where people come to visit with acquaintances perhaps seen only when fair time rolls around. Here there is the spirit of competition, as dairy farmers, fruit farmers and livestock men compete keenly for the right to have the valued red ribbon attached to their entry. The ladies best even efforts also bid for their share of the glory at the small fair—small in comparison to the Ex—but a mammoth exposition in the countryside in which it is held.

Next week one of the famous fall fairs of the Province of Ontario will be held, as the 92nd Annual Beamsville Fair assumes a bigger role, and takes a step closer to being a real County Fair, a role it should play in the future.

For the first time in its history, the Beamsville Fair, becomes a three day fair, with the first day taken up with the judging of ball exhibits, and the two succeeding days packed full of the thousand and one attractions found at the typical fall fair.

A group of hard working directors have gone to great lengths to be able to say honestly and sincerely, "This is the best fair we have ever planned." And there seems to be no doubt but that it is going to be a terrific show.

Track and field events have been planned for the second day, Friday, September 9th, in which school children from all over the county may take part. Friday is also listed as Children's Day, so the grounds should resound to the happy cries of the kiddies, as they sample the candied apples of the midway, and enjoy to the brim one last fling at a departing summer vacation. The Junior Farmers also have their day on Friday, these vigorous young Canadians competing with their usual enthusiasm in the parade of prize livestock.

Just like the "big show" the Beamsville Fair has incorporated a night show, which will run on both Friday and Saturday nights. Many famous stars of radio and stage will be on hand to perform on the new stage, fronting the bandstand so recently erected.

Saturday, of course, is another big day, with harness racing a horse show and a full program of events, that is bound to draw to the Beamsville grounds one of the largest crowds in the Fair's history.

So many new ideas have been incorporated this year, that it is difficult to keep pace with them. The fruit grower will be keenly interested in the advent of a demonstration of fruit grading, which

VINEYARD ROWS KEEP FIREMEN ON STRAIGHT And EXTREMELY NARROW

Firemen were called to Nelson avenue, in the Winona area last Friday, when a fire was reported burning out of control in the bushes bordering the main line of the C.N.R. Driver Stuart had considerable difficulty maneuvering the pumper to the immediate scene, having to navigate a narrow course between grape rows. It took considerable time for the fire ladders to reach the scene of the blaze, but only seconds to extinguish the flames once they successfully traversed a difficult path.

AVOIDING ACCIDENTS

Asked to give a 15-minute talk on safe driving, a taxi driver, who had driven a million miles without an accident, announced: "It won't take me any 15 minutes to tell how to avoid accidents. It's simple—just drive on the theory that every other guy in the world is crazy."

OIL STOVE EXPLODES CAUSES \$5000 DAMAGE

Damage was estimated at \$5000 following a serious fire that gutted the home of William Hartnell, North Grimsby Township on Sunday afternoon. Grimsby firemen laid fifteen hundred foot of hose and using the the pumper from a hydrant near the bottom of the Mountain Road, managed to get good pressure and extinguish the blaze, which, however, had made considerable headway before they were able to combat the fire.

The fire started when Mrs. Hartnell and Mrs. Ruth Mackie were preparing the Sunday dinner, using a coal oil stove, which suddenly burst into flame, and spread quickly about the kitchen. Mr. Mackie who was in the front of the house called the fire department, and then attempted to drag the oil stove from the kitchen. Stenclair Mackie received burns to his hands in this effort to rid the now burning kitchen of the source of the flames.

Eye witnesses reported favorably on the swift action of the department under Chief Alf LePage, who made record time not only in arriving at the scene, but also in laying 1500 feet of hose under adverse conditions.

LINCOLN AND WELLAND REGIMENT PLANNING REUNION IN OCTOBER

A meeting was held recently in St. Catharines of the past and present members of the Lincoln and Welland Regiment for the purpose of organizing a Lincoln and Welland Regiment Association. This move has long been awaited by Linc. and Wink. veterans who wish to spend time in fellowship with their old comrades. Officers were elected at the meeting which was held in the St. Catharines Armouries.

It was made clear at the time of the meeting that the organization was to be for all personnel who had been at any time connected with the Regiment. This includes all the component parts of the unit from the time of its conception as the old Lincoln Militia and not just the First Battalion which served in the second world war.

The slate of officers which was elected was as follows:

President—Lt. Col. C. A. Muir.
Vice President—Lt. Col. G. M. Lampard.
Secretary—Capt. John L. Pond.
Treasurer—Capt. C. Bentinck.

There was also elected an executive committee on which will serve men from each district in order to provide adequate representation. This committee consists of the following: Major Jim Dandy of Grimsby, Lt. Col. G. R. Greer of St. Catharines, Lt. Don Sharp of Fort Erie, Major Hazelwood of Port Colborne, Major D. Watt of Welland, and Major M. McCutcheon of Niagara Falls, Ont.

The first real function of the Association will be to hold a regimental reunion on the weekend of Saturday, October 29th, 1949, which will become an annual event in the future. This date was chosen since it is on the weekend nearest October 27th on which date in 1944 the Lincoln and Welland Regiment captured the town of Bergen-op-Zoom in Holland. The battle for the town involved extremely severe fighting and very heavy casualties.

TRUCK CLIMBS HYDRO POLE—DRIVER UNHURT

Twenty-year-old Stan Sobkowich of Grimsby, was involved in an accident Wednesday morning on the outskirts of Beamsville. Sobkowich was the driver of a light pickup truck that struck a piece of lumber on the pavement, and went out of control, finally overturning on a grassy terrace adjacent to the highway, rolled over a tree, and came to rest with the rear of the truck wedged some ten to twelve feet up on a hydro pole. Sobkowich was injured slightly, the truck was damaged extensively.

GRIMSBY WEATHER

Week ending at 8 a.m., Monday, August 29th, 1949.
Highest temperature — 85.8
Lowest temperature — 55.9
Precipitation — 1.23 inches

There is not much left of this feed truck, out of which Danny Winger, age 21, of Stevensville, escaped unscathed, after somersaulting end over end, following collision with a car driven by a 73-year-old St. Catharines lady. Danny is considered by spectators who saw the wreckage to be about the luckiest guy around today. Danny and his wife pictured in the bottom photo agree. The little woman is doubly happy, as she had intended making the trip with her husband, but Danny said no at the last minute. The accident occurred on the Q.E.W. just east of Old Side Road.

FOSTER HOME OF CHILDREN'S AID CLOSED WITHOUT EXPLANATION

Without explanation the Children's Aid Society has recently closed the home of Mrs. Charles Durham of Grimsby Beach, a foster home for children. At the time of the change, Mrs. Durham was looking after seven children, all of whom had been with her and late Charles Durham since they opened their home seven years ago, when the Children's Aid Shelter closed down in St. Catharines.

Mr. Durham, then Warden of Lincoln County opened his home to fourteen children who were wards of the shelter, and many of those boys and girls have made their home with the Durham family until this recent unexplained turn of events.

BARN DANCE HELPS PAY FOR BEACH HALL

Last Saturday night saw a rather unusual entertainment at the Grimsby Beach Recreation Hall in the form of an Old Fashioned Barn Dance. The whole affair was just what the name indicates and everyone seemed to have a whale of a time. Music was traditional with a fiddle, a banjo and piano providing rhythmic strains for both square and round dancing.

The floor show was really worth seeing. Taking a hillbilly motif, the chorus presented such delightful numbers as "I Like Mountain Music" and "Comin' Round the Mountain." The cast was dressed, almost.

This particular dance had quite a significance to the people of the Beach. It was the receipts from this effort that put the fund which is paying for the Community Hall over the top.

The hall was started about a year ago and was built largely by means of voluntary contributions and labor. After the hall was complete the receipts from various dances were added to the fund until this week when The Old Fashioned Barn Dance put the fund over the top.

PRICE OF GRAPES NOT YET SET—ARBITRATION BOARD WILL MEET

George Lounsbury, Chairman of the Grape Growers' Advisory Board, announced to-day that the price of grapes has not been set and is going to arbitration. It may be a few days yet until the outcome is known, or even a week at the most. The announcement followed a meeting of the Grape Growers' Market Board, held on Monday at the Leonard Hotel in St. Catharines, at which a group of district men attended. The meeting called to discuss negotiations, had George Lounsbury of Fruitland, Eric Deucherry of Fruitland, Reid Smith of Winona, and Glen Reinke, Don Beamer, and Max Nielsen representing Grimsby.

The entire building set aside for the Warehouse and store is one hundred feet deep with a fifty foot frontage, the store proper is the full frontage by twenty feet. It will be finished in attractive, stained and polished plywood, with colored cement floor. The warehouse has been constructed so as to be moisture proof. A counter three quarters of the width of the store will be utilized, while a huge refrigerator 15 feet wide and 20 feet deep will permit the selling of a chilled product. Ceilings are of anti-noise material, and heating will be done by oil fired boilers.

RECEIVES PROMOTION

Sgt. Ike Robb of Provincial Police, who has been promoted to the post of Inspector in charge of the Cochrane district. Ike is well known in Grimsby where he was stationed for some years.

SEPTEMBER OPENING PLANNED FOR BREWERS RETAIL STORE

Present plans indicate that occupancy of the new brewers' warehouse and retail store, located at the corner of Elizabeth Street and the Queen Elizabeth Way, will take effect September 1st, and actual operation effective September 15th.

J. B. McCauland, property manager, told The Independent Tuesday, that in all probability the retail store would be ready for operation by that date, and that a manager from Hamilton will take over. There is a possibility that he may be replaced by a local man in the future. The staff, which will number three on a permanent basis, may increase to as high as ten during the summer months. These employees would all be local residents.

The entire building set aside for the Warehouse and store is one hundred feet deep with a fifty foot frontage, the store proper is the full frontage by twenty feet. It will be finished in attractive, stained and polished plywood, with colored cement floor. The warehouse has been constructed so as to be moisture proof. A counter three quarters of the width of the store will be utilized, while a huge refrigerator 15 feet wide and 20 feet deep will permit the selling of a chilled product. Ceilings are of anti-noise material, and heating will be done by oil fired boilers.

A large concrete apron will be used for loading and unloading at the warehouse entrance, while a spacious gravel parking space one hundred feet wide and 35 feet deep is also being made available for the convenience of the public.

GUITAR PUPILS WIN TROPHIES AT CHICAGO CONVENTION

The proud owners of four A-A trophies awarded only to groups of players receiving over 95% from the judges, the students of the United Studios of Music arrived home jubilant over their success at the International Guitar League convention in Chicago, last Monday, August 22nd. The students, their parents and friends were very tired from the long weekend of excitement, but during the convention they copied a large majority of the cups and trophies awarded by the OGIL Students also received two A's for winning 90 to 95% in their standing.

Taking part in this convention from Grimsby and district were Barbara Mason, James Scott and Rudy Wyszynsky, and Miss Ruby Scott, Paul Butell and Ross Butell.

Director Ted Ryan received the highest award of the contests. He was presented with a gold plaque by the judges in honor of his new position as the best director in the Band Division at the convention. Mr. Ryan won his honors over some 25 contestants. During their stay in Chicago the group attended the Railroad Fair and inspected the many modern trains of today as well as the train of tomorrow. In the evening they saw a pageant which brought back memories of the hardships faced by early act.

BLOSSOM TIME HORSE SHOW NETS HOSPITAL \$1,604.22

TRUCK DRIVER WITH LUCK OF THE IRISH

Danny Winger, 21, of Stevensville, Ontario, is just about everyone's unanimous choice as the luckiest guy of the year, as far as the accident record in these parts is concerned. Danny was driving his truck east along the Queen Elizabeth Way last Friday afternoon, when he suddenly discovered a car right in front of his heavily loaded vehicle. Too late to avoid crashing, he swung too late and his truck and load of feed went rolling along the pavement, somersaulting at least twice, and came to rest upside down on the grassy bank of the highway. Meanwhile, the auto, operated by seventy-three year old Miss Sadie Thompson, of 29 Edmund St., St. Catharines, turned over on its side. Miss Thompson was pulled from her auto suffering only from a gash to her head. But Danny Winger also had the luck of the Irish with him, for two men dragged him from what was left of the cab of the truck and Danny, too, was uninjured.

Winger claimed that the driver of the car had not pulled off to the side of the road when she apparently was about to stop and examine the fruit at one of the many fruit stands now dotting the busy highway, but Miss Thompson told reporters that she couldn't see why he hit her, "I was stopped and right off the road, thinking of getting out to buy some peaches."

A large crowd attracted by the jumbled mass of wreckage soon gathered, and everyone who viewed the upturned truck marvelled at the miraculous escape of Mr. Winger. Provincial Constable Doug Robb, Grimsby, investigated.

DOUG AITON SIGNS PRO CONTRACT WITH ST. LOUIS CARDINALS

As a result of attending the St. Louis Cardinals training school, which was held in Hamilton Cardinals Hall Park, this past July, 19-year-old Doug Aiton, son of Mr. and Mrs. Archie Aiton of Grimsby, has been signed to a one year contract by the St. Louis Cardinals and will play ball next season with the Pocatello, Idaho club, a farm club of the Cardinals.

The brand of ball young Aiton will be in is class "C", a grade higher than that played by the Hamilton Cardinals of the Pony League, this being Class "D" baseball.

The possible start of a baseball career will not affect Doug's university training, which commences this fall. He has enrolled in a Commerce and Finance Course at the

West Lincoln Hospital Near- ing Completion; Formal Public Opening Scheduled For Early October.

The treasurer's report of the Blossom Time Horse Show, which undertaking was planned and successfully carried out by Mrs. E. H. Cudney of Winona, has been submitted to the Board of West Lincoln Memorial Hospital, and shows a balance of net proceeds totalling \$1,604.22. The magnitude of this venture is almost unbelievable, until one examines the detailed report, and when one considers the gamble taken by Mrs. Cudney, who staked the entire afternoon against the weatherman, then one can appreciate the responsibility shouldered by this noble benefactor of the West Lincoln Hospital.

Certainly the Board of Directors were at a loss to express their gratitude to Mrs. Cudney for the tremendous effort put forth by herself and family, and the hard-working committees whose efforts, made the event one of the districts most brilliant affairs of the year.

Gross receipts totalled \$3,003.20, while gross expenditures totalled \$3,498.98, the net balance of which has been turned over to the Board of West Lincoln Hospital to use as they see need for. The Winona Legion games booth netted close to a hundred dollars, while the Winona Woman's Institute refreshment stands took in nearly four hundred and seventy-five dollars. The Winona Men's Club also took part, and netted \$46.87. Donations to the Blossom Time Horse Show exceeded four hundred dollars.

Although the opening of the hospital was to fall in the current month, it appears now that the opening will take place early in October. Mr. Samuel G. Bartlett is in charge of the public opening, at which various governmental dignitaries will take an active part.

Mr. A. R. Globe, when questioned by The Independent as to the progress at the hospital, stated that it was in its final stages of completion, and would be ready for the formal opening in October. The plastering is completed with the exception of one room in the interior, and plasterers are now at work applying the first coat of plaster to the exterior. A final coat will be applied within the next week, when this dries it will be an off shade of white, the final choice of the Hospital directors.

All equipment is now in, or in the process of being moved into its new home, and this is being set up as fast as possible. Miss MacRobbie has a staff assisting with this work. These employees have recently been busily engaged preserving some 3500 pounds of fruit, and a considerable quantity of

(Continued on page 10)

LIVE AND LET LIVE

Monday, September 5th, is Labor Day, and the following day school children by the thousands commence the fall term. In Ontario it has been estimated that 75,000 of these children will be starting their first day in the classrooms. Every possible precaution should be taken to protect these young lives.

The Department of Highways, in co-operation with the police, safety organizations and other agencies, is endeavoring to direct public attention to the traffic hazards peculiar to the Labor Day week-end. In past years, the Labor Day holiday has been the occasion for a record number of traffic accidents and fatalities. At this time, a great many citizens are taking advantage of the last public holiday of summer; cottagers and summer vacationists are streaming back to cities and towns and for these reasons there are undoubtedly more cars on the road than at any other season of the year. All this adds up to a very hazardous traffic situation.

Let us not read this lightly, and say confidently that it cannot happen to us. Accidents are made, they just don't happen.

Protect your own life and the lives of others by using your best possible judgment over this busy week-end, enjoy our last summer holiday to the fullest degree, but enjoy it in a sane manner so as to enjoy another. And do not forget the children. Sure they will make mistakes, dart in front of your car, ride bicycles in a most unorthodox fashion, and generally act in a manner guaranteed to give the average motorist the creeps... but consider your own feelings alone if you should injure or bring a tragic end to a young life. Yes, Mr. Motorist, let us drive carefully.

Facts • And • Fancies

FRANK FAIRBORN, JR.

True independence is never afraid of appearing dependent, and true dependence leads always to the most perfect independence.

GOOD ADVICE

What better advice could a new International Lions President hand out to the members of his vast organization than to "re-value our own motives and objectives; to be sure that our actions and inhibitions are free from the tarnish of pettiness and selfishness. We must decide to what degree

we want peace on earth and then make up our minds to sacrifice enough of our personal comfort and pleasure to pay the necessary price to attain that goal," he said.

Which advice could be adopted by every citizen regardless of affiliation with any organization.

RAIN OR NO RAIN

Normal rains in September, October and November will be the dominating factor in the power situation in the coming winter. That is the statement by Chairman Robert Saunders of the Hydro Commission. Last year, it will be remembered the shortage of rain became a political factor, but it badly backfired in the by-election held in Carleton County, when George Drew secured a seat in the House of Commons. They were all set to go on blaming Drew for a power shortage. Then rains, late enough it is true, began to fall in the Ottawa Valley. That saved the situation entirely and first thing the province knew, there was a return almost back to normalcy.

Even if there is a stringency in electric current this year, it would be stretching things to make political capital out of it, and accuse the government of lack of foresight.

THE PURPLE SEASON

Few people appreciate the fact that the seasons bring colors of their own, stronger colors for the flora in the tropics, lighter colors in the temperate zones. But at this time of the year come, as The New York Sunday Times observer of the seasons puts it, the rich purples in the fields and meadows, denoting not only a time but a maturity. It is as though the whole summer had been building toward this deep, strong color of royalty, to match the gold of late sunlight and early goldenrod.

And that is, in a sense, what has been happening. Flower colors are mysterious, as to cause. It is generally accepted that the full, hot sun of the tropics produces stronger colors, the brilliant golden yellows, the deep oranges, the full-bodied scarlets. It is also understood that the lesser sun of the temperate zone produces lesser colors, for the most part. Our early spring brings us, except in the violets, the weaker shades, the whites, the pinks, the thin yellows and the light

blues. Early summer warms the landscape with yellows and deeper blues, some orange and a variety of reds. But it takes late August and the accumulation of sun and warmth to give us the strength of purple in showy mass.

Here is the purple. The thistles flaunt it, prickly, forbidding, but stout of stem and even more stout of color. The burdock, troublesome weed that it is, reveals its purple tufts which will ripen into hook-spined burrs eager to hitch a ride to new fields. Ironweed stands tall in the lowlands and lifts its massed heads of the warmest purple to the sun. There is a purple to catch any eye, and hold it, a magnificent purple. And the asters now approach their season; the small white ones will frost the countryside, but among them will stand the purple of their own royalty, to be sought out and remembered.

The summer frays away into September, but it does so in purple majesty, strong, full-bodied, full of summer sun.

INVESTORS, AND RISK CAPITAL

Joseph L. Rutledge, Toronto publicist raises the issue of the investor, and his risk capital. It might well be asked, where would Canada, this young country be without that factor in development? And is the investor worthy of his dividend, which in these days is heavily taxed.

The writer goes on to point out that a favorite fiction of those who decry our present system is that the investor, by the fact of his investment, particularly if he is a citizen of another country, is an exploiter of our resources and, in essence, a robber. We do not always pause to remind ourselves that many of our resources were here for long centuries, and no one the better for them, until this investor found a use and established a value.

Let us cite an instance. In 1884 two brothers, Thomas and William Murray, bought 310 acres of land that is now known as the Sudbury Nickel Range. The price was a dollar an acre and no one thought they had robbed anyone. A year earlier a science-minded medico, Dr. Howey, had picked up a chunk of ore on the property and had it assayed. The report he received was that the only metal present was an element known as nickel that "had no commercial importance."

It was just three years later that a shrewd American promoter, Samuel J. Ritchie, of Akron, Ohio, took over part of the chie, of Akron, Ohio, took over part of the property and formed the Canadian Copper Company. Note that there is no mention of nickel that, for all anyone then knew, was

just a nuisance, depreciating the value of the copper. But Ritchie, the promoter, had a stake in the venture. He began investigating this troublesome nickel element. He discovered that an English scientist John Galloway had been experimenting with nickel in iron castings, to harden them. It prompted Ritchie to write the great Krupp armament firm in Germany. The Krupps brushed the suggestion aside. But Ritchie kept looking. Soon he heard of a Scotchman, of the unscottish name of Reilly, who was experimenting with nickel as an alloy of steel at the Glasgow Steel Works. It was the opportunity for which he had worked and risked.

History does not record what there was "in it for him." But possibly, whatever it was, there are still those who would urge that it was our inheritance on which he had no claim. All we can argue in rebuttal is that nobody wanted nickel, or knew of its existence in quantity until Ritchie began to scout around. It was like the gasoline that early oilmen found so disturbing. Both were problem children, depreciating the value of the parent product, until someone found a use for them.

Forgetting all that nickel has done toward opening a country, providing cities and homes and employment, there is this further fact. In the twenty-eight years from the end of the first Great War to 1945 this nickel problem child produced for Canada just short of a billion dollars. Mightn't we afford more exploiters who could do as much for us?

THE FURNACE YAWNS

It won't be long before that furnace has a big yawn. Question frequently heard these days is: "Have you got your winter's coal in?" Answer also most frequently heard is: "No." It is believed that a far less number of people have yet made proper fuel provisions for the winter months, and this during months, when the dealers are prepared to make prompt deliveries than in many years past. There is a word of warning from Ottawa:

Every householder should make a strong effort to fill his coal bin during the next few months, rather than wait until winter weather is upon us, the Rt. Honorable C. D. Howe stated.

The Minister pointed out that at this

time of the year, dealers are able to make immediate deliveries, ensuring customers of an adequate winter's supply of the class and kind of fuel they require.

He also pointed out that last winter was relatively mild, and householders had little difficulty in obtaining their fuel requirements, but there was no assurance that the same mild weather will again prevail in the coming winter.

Mr. Howe realized that during the warm weather it was difficult to convince householders of the necessity of looking a few months ahead and taking advantage of the current available fuels in the dealers' yards. He felt, however, that the public should be advised and warned of what will happen if deliveries are left to the last moment.

Have you heard my theme song, "24 Hours of Sunshine?"

Met Peggy O'Neill, the "Personality Girl" on the street. She is just as full of personality as she ever was.

I have not yet had the pleasure of meeting Margaret Mann, Miss Canada of 1948, Peggy's protégé, but she must be a whiz if she can beat any of my night widows and particularly my Little Peach Bud.

They do tell me that Jack Clifford, the effervescent SALES and Service Manager of Harris Motors uses "Have Number Seven" on those curly locks of his. Must try it.

When the Village Banker reads this he will throw a triple conniption fit. "Little Dyke" and this chronicler were in Toronto last Friday and purchased four new pieces of machinery for The Independent plant. Wham! What a kick in the pants the overdraft is going to get.

A coat of paint is said to be from one to three thousands of an inch thick. How about lipstick?—St. Catharines Standard. Couldn't tell you a thing about it. Editor Whitehead. My eight beautiful widows and my newly acquired Peach Bud do not use lipstick. Their lips are just a natural cherry red and just as succulent. What did you think about that.

Gosh, folks, it's great to be back on Main Street. A lot of things have happened in the last three and a half months since I was able to see the old drag very clearly, therefore I have lost track of a lot of things. Some of them for the sake of The Street. I would have lost track of, but the big majority of them I would have liked to have known about. Anyway it is still Old Main Street.

Have lost all track the past three months of what has been taking place locally in agricultural phenomena. I expect that in about another week Old Bill House will be reporting that he has a cabbage that took a 10 ton crane and 20 men to load on one of Goodale's heavy machinery moving trucks and Red Graham will be down in The Bowlway bragging about digging 15 bags of potatoes out of one hill. I don't like cabbage but one-fifth of the take from one of those hills of potatoes will carry me through the winter, Red.

This columnist and his partner in mayhem, in all its forms, came smugly down the Queen Elizabeth the other day just in time to see Fire Chief AH LePage and the new fire truck disappearing up a grape row. A few hundred feet down the pavement we ran into Provincial Constable "Post Office" Thompson and two other provincials, a Harris Motors tow truck, a wrecked car, a wrecked truck and a few tons of cattle feed scattered in all directions and about two hundred cars all parked so the curious could have a look-see. Being news hounds we parked and Little Dyke went back and surveyed the scene. Walked around the end of the up-turned car and met Wee Willie Newson gazing in one of the windows. The Little Fellow took a look in and then nearly fainted for down in the bottom of the car was The Independent's four foot, six inch ace reporter.

Before you ever cross the road—"PAUSE-Look both ways" is your safety code.

Wise persons, young and old, use extra care when crossing roadways. They look both LEFT and RIGHT to see that the way is clear. It takes but a second... but it spells S-A-F-E-T-Y.

SEC. H. DOUGHTY, Minister

ONTARIO DEPARTMENT OF HIGHWAYS

High McGregor. As it turned out High was in their heading out personal belongings and such to Wee Willie. Just goes to show you folks how Independent—men never stories.

DID YOU HEAR ABOUT MY OPERATION? Well, mine, just like the one undergone by Mrs. J. Fomeroy McInyre, was a torrid success. Like Dame McInyre, I will be able to talk about it for the next 65 years, if I live that long. She will.

That's all there is folks. If Mrs. McInyre's operation was no more thrilling, sensational and terrific than mine, then why talk about it. There is only one big thrill to the whole business and that is that I CAN SEE. Thanks a million to the three men mentioned above, and my Little Peach Bud.

After going through several weeks of preliminary training under the guidance of Optometrist Vernon Tuck, Dr. A. Fleming McIntyre and the great Dr. Crewson, I was finally transferred to a room on ward nine of Hamilton General hospital where I was greeted and warmly welcomed by those two "Fugitives From Heaven" Miss Green and Miss Stock and a bevy of white garbed charmers. I should have been in Hollywood, because Mrs. "Penny" wasn't.

All went well that first night in a strange camp, outside of having to gulp about 36 different kinds of pills. No number nine, thank goodness. Next morning had a wonderful breakfast. Then in came one of the white clad charmers, supervised by Miss Stock and she poured about a quart and a half of two different kinds of narcotics in my optic. I braved me in raw water, put a pair of nylon and a night shirt that buttoned down the back on me, much the same as a preacher's collar. I wasn't kicking.

Then in came two big huskies that looked to me to be full brothers of Jack The Giant Killer. They gave me the howe-he and I landed on a four wheeled jumping car where they covered me with a blanket and strapped me down with a pair of surcingle, the same kind that I always used to put a blanket on a race horse. Then they trundled me down the hall and again I was surrounded by a bunch of white roses and "Doc" McIntyre and "Doc" Crewson right in the middle of them. Boy, if I ever got resurrected I'm going to be a doctor.

"Doc" Crewson took a look at my optic. "Doc" McIntyre felt my pulse. "Doc" Crewson picked up a harness ring and inserted in my eyelids. "Doc" McIntyre said, "Heart and pulse strong." "Doc" Crewson grabbed an instrument that looked to me like a pair of tailor's shears and with the tenderness of a baby seemed to me to be cutting a circle around my eye just like a woman would cut a small hole in a piece of cloth. He gazed down at his handiwork for several seconds and then picked up another instrument that looked to me to be one of the pine poles off the Grimsby fire truck. He took one tender jab and said to "Doc" McIntyre, "There it is." He then put pads over my eyes that felt as thick and as heavy as the padding Old Pop McVicar wore when he was a star hockey player. He then took a bolt of gauze cloth and wound it around my head for several miles and lastly put a fibre black mask on me of the same type that Jesse James used to wear. The giants then wheeled me back to my room where the charmers and the "two fugitives" tenderly put me to bed and kept me there for 16 days. I would have been willing to have stayed there for eternity if they would have let, but they said get home, Main Street needs you.

CONTINUATIONS

GUITAR PUPILS WIN
tires during the 17th century, in order to help start the great railroad system which today spans the continent.

Saturday morning was set aside for a sight-seeing tour of Chicago and that evening members of the group joined more than 100,000 spectators for the Chicago Music Festival. Featured in person at the festival were several outstanding artists including Al Jolson and Dr. Albert Harding of Illinois, and many others. Climaxing the evening were two dramatic and very moving displays. Every member of the audience was asked on a count of three to light a match. The blackness of the huge stadium took on the appearance of the night sky, studded with thousands of twinkling stars.

In the grand finale some 1600 members of the myriad concert brass bands assembled in the centre of the field, forming the Stars and Stripes of "Old Glory." The evening came to a close with playing and mass singing of the American national anthem amidst a magnificent fireworks display of aerial bombs (weighing up to 35 pounds) bursting overhead.

During the students' stay in Chicago, they received many fine compliments from other group leaders and committee members of the International Guitarr League who paid them the highest tribute and honors for their fine discipline and courtesy shown toward fellow students. In both the teachers' and Mr. and Mrs. Ryson's views they returned home honored students. Rules and regulations which were specified were promptly fulfilled. The Rysons stated today they are proud of their students' performance and showing throughout the trip, and they hope that this can be repeated next year. St. Catharines can be proud of the young teen-age group who represented the city in this year's contests—the only Canadian organization to participate and to receive such high honors.

GLASS CHALKBOARD

Chalkboards of tempered glass are now being produced in Canada, says the Financial Post. Surface said to be practically indestructible, does not become shiny and slick with use. Claimed easy on eyes, eliminating blackboard glare customary with old school blackboard. Glass chalkboards come in eye-see green color, up to 48 in. by 90 in.; have few joints and are easily cleaned.

The first cross on top of Mount Royal was planted in 1643.

SOIL CONSERVATION MEETING PLANNED

Preparations for a brief to the Select Committee on Soil Conservation will be made at meeting in the Agricultural Office, St. Catharines, tonight (Tuesday), September 1st, at 8:00 p.m.

Many of the organizations representing the municipalities of Lincoln are being invited to attend with a view to establishing concrete recommendations and suggestions to be presented to the Committee at a public hearing in Vineland during the week of October 17th.

The purpose of the committee is to tour the Province, hold hearings in many centres, and gather first hand much information as to the extreme needs for soil conservation, reforestation, flood control, drainage, soil depletion, etc.

The ultimate goal it is hoped will be the formation of a Provincial Conservation Policy. This is a very important project, one which indeed course will benefit greatly the rural areas of this Province. It behooves each and every farmer, to give some thought to his particular problems pertaining to the soil and to make sure that his ideas are brought to the attention of this committee in the form of a brief.

Whether a formal invitation has been extended or not does not prevent any soil conservation minded person from attending the meeting on September 1st.

CLASSIC HIT RETURNS FOR SHOWING AT ROXY

A memorable motion picture returns to the Roxy on Wednesday, Sept. 7th. "How Green Was My Valley" winner of the Academy Award as the best picture of its year features Walter Pidgeon, Maurice O'Hara and Donald Crisp. It is a simple, honest, unforgettable story of a family whose peace and prosperity are threatened by the ever-increasing complexities of modern life. The Morgan family is one everyone knows and loves. The father, mother, sons and daughters have their individual and collective problems to face, and they face them with courage and character of an heroic and noble race. They are real because they are universally human. Woven into the background of the picture are exquisite Welsh melodies, many of which have never been recorded before. Authentically part and parcel of these people, the music is an integral part of the picture as in the lives of Welshmen everywhere. Withal shines the directional genius of John Ford, who sensitively has woven together the threads of this magnificent story adapted for the screen by Philip Dunne.

HYDRO PLANTING TREES IN NIAGARA DISTRICT

More than 43,000 young trees have been planted on lands owned by the Ontario Hydro in the Niagara Peninsula to date this year.

In making this announcement, Commission Chairman Robert H. Saunders stated that since Hydro's reforestation had been inaugurated in 1932 approximately 330,000 trees had been planted, covering some 400 acres in the Niagara, Georgian Bay and East Central Regions.

Hydro's reforestation program, he stated, represented a major step in a land conservation program that would ultimately result in the reforestation of hundreds of acres of Hydro land throughout the province. Properties that are already wooded, he added, will be placed under a system of forest management. The plan being followed is to take each of the Commission's nine regions individually and to determine what properties should be reforested or placed under forest management.

An interesting feature of the work in the Niagara Region, has been the introduction of a tree planting machine known as the Den Uyl Planter. Operated by a three-man crew, the machine consists of a tractor drawing a special plough attachment that opens a narrow furrow in the earth, and two rubber-tired packing wheels that close and pack the trench after the crewman has placed the seedling.

"By using the planter we have stepped up the pace of the project to the point where we have been planting an average of 5,000 trees in a day," the Hydro Chairman stated. "Ordinarily two men planting by hand would average about 500 trees a day."

The Hydro reforestation program was originally begun in 1932 but was interrupted by the war. The reforestation of the Hydro land will protect them from erosion and reduce the siltage in the storage basins of generating stations. In addition, it will exercise a regulating influence on the run-off on watersheds and contribute favourably to the flow of rivers and streams.

Public opinion polls disclose the public belief that investors in business corporations get 25c from every dollar of sales. The fact is that the Canadian investor receives less than two cents from a dollar sale.

HOW NOT TO GET RICH BUT QUICK!

The Peach Kings were beaten in Oakville. They are now out of the running. Since it was a third and final game the gate was split 60-40. Gather round, children, and we will show you how to take 60% of \$63.19 and come up with \$7.83. It could only happen in Oakville the pure.

AN-CHOO—HOW'S YOUR HAY FEVER?

There still is only one satisfactory method of treatment for hay fever. It is stated by Dr. William A. Oille of Toronto, in an article "That Miserable Complaint—Hay Fever"—in the current issue of HEALTH, official magazine of the Health League of Canada.

And that method consists of attempting to desensitize the patient by giving repeated injections of increasing doses of a solution containing the protein extracted from the particular pollen that causes the person's symptoms. "This method of treatment is the only one that helps the severe case, especially those associated with some asthma," Dr. Oille writes, adding that "as some 20 per cent of patients do at some time develop asthma, it is important to try to prevent this complication."

The writer states that so far this type of desensitization treatment only helps the individual for the year that it is carried out, and only rarely does it result in more permanent cure. However, most clinics or practicing physicians treating large numbers of hay fever patients achieve excellent results in some 75 per cent of patients by this method. Any symptoms persisting after treatment are nearly always quite mild and can be almost completely relieved by the addition of drug therapy.

In discussing skin tests as a means of diagnosis, Dr. Oille says use of these tests is only of confirmatory value as they are often misleading inasmuch as there are many persons whose skin gives a reaction when tested with extracts of these foreign proteins, yet the patient has never had clinical symptoms due to this agent. On the other hand there are individuals who have true allergic clinical symptoms, yet the skin tests are negative.

He is of the opinion that skin tests should be carried out by someone experienced in their execution and interpretation, then considered in association with a carefully analyzed history.

Of treatment of hay fever sufferers dry drugs, Dr. Oille says that in general, this type of treatment will control mild cases, and partially relieve the moderately severe patients, but is of little value in the more severe cases.

— All Welcome —

THE BRIDE AND FLOWER GIRL

By PRUNELLA WOOD

The bride of warm, sunny days gets a break in the weather which helps her pageant enormously, for short of ermine, no wrap can be as lovely as her bridal gown, and garden flowers are rarer than hothouse choices. This bride is gowning in some three hundred yards of nylon net ruffling (each edged with Val lace), and she can choose a church or garden setting, and grace the scene.

The little girl wears a replica of the frock, with a tussy-mussy, rather than a bridal bouquet of lilies and orchids. Enchanting and aloof, as we saw the two paraded in preview together, the dresses become belle-of-the-ball wardrobe fare after the ceremony. (Note the bride's mitts... no ring trouble.)—Tailored Woman.

land, and Mr. and Mrs. W. Hill, with Donna, Beverly and Vaughan, of Fergus, were visitors at the home of Mr. and Mrs. W. Hoebel during the past week.

Mrs. Nellie B. Thomson has purchased the house now occupied by Dr. J. V. Christie on Elizabeth St.

Mr. and Mrs. Harry Black and Miss Dorothy Black of Oshkosh, were week-end guests of Mr. and Mrs. Don McGregor.

Mr. and Mrs. John VanEvery of Winnipeg, and Mr. and Mrs. H. A. Baldwin, of Donna, Texas, were recent guests at the hospitable home of Mr. and Mrs. James Theat.

Mr. and Mrs. Jack Altchison, Margaret and Betty, of Montreal, are spending their holidays with Mrs. James Altchison and Mr. and Mrs. E. J. Marsh.

Mr. and Mrs. Joe Winters of Pontiac, Mich., Mrs. Lorne Armstrong and Mr. and Mrs. Fred Bishop, Chatham, spent the week end with the latter's sister, Mrs. J. J. Graham and Mr. Graham, John St.

Mr. and Mrs. Francis Liddle and son Blair, of Simcoe, Miss Mary Liddle, Peterboro, Mr. and Mrs. Robert Liddle of Toronto, and Mr. and Mrs. A. G. Goddard of Kirkland Lake, have been recent visitors of Mrs. Thea Liddle at Rosemore.

Mr. and Mrs. Wm. Lothian and Miss Helen Lothian returned on Monday from a two week's trip by motor through the New England States by way of Northern New York State, and up to the maritimes, with a stop-over at Halifax, returning through Quebec Province.

Mr. and Mrs. Ed Lampman, Mr. and Mrs. Walter Lampman and Joe attended the Cousins re-union at Chas. Patton's farm, Millgrove, on Saturday, August 27th. Thirty-seven sat down to lunch and a lovely day was enjoyed by all. Guests came from Fonthill, Ridgewood, N. Pelham, Hamilton, Roseville, Norwich, Watford and Grimsby.

SOCIAL ACTIVITIES AT THE VILLAGE INN

The busy season is at its height for the very popular Village Inn and its charming manager, Miss Peggy O'Neill. Both the Inn itself and the Oak Room are kept busy providing accommodation for the numerous guests. Among the guests who have recently spent a pleasant evening at the Inn are not only many local people but also many from the cities and towns outside Grimsby.

Recent guests included: Mrs. E. Crotty and party of St. Catharines, who enjoyed a dinner and bridge; Mr. J. Orion Livingston and party; Dr. Thomas and party of Hamilton; Mr. and Mrs. Chas. Higgins, who entertained several guests at a dinner party; Mrs. Glance of Winona, and party; Mrs. Montford and party of Niagara Falls; Mrs. E. Eastwood of Hamil-

Alex Forsythe, and E. D. Knight.

The bride, given in marriage by her father, was gowning in white corded silk with short veil and carried a white prayer book with Pinocchio roses and tiny 'mums. She was attended by her sister, Miss Louise Knight, as maid of honour, in a matching gown, wearing an ivy crescent with white asters in her hair and carrying a cascade bouquet of white asters and ivy in the form of a crescent.

Miss Phyllis Robinson of Hamilton, sang "O Perfect Love, and The Lord's Prayer."

A reception was held at The Village Inn, with the bride's mother receiving in a becoming dress of cinnamon brown, assisted by the groom's mother in grey.

Mr. and Mrs. Dilworth left on a motor trip through Quebec and the Adirondacks, the bride travelling in a taupe dress with black accessories and corsage of yellow Pinocchio roses. They will make their home in St. Catharines.

DEATH

SCHOOLEY—At her late home in North Grimsby on Wednesday, August 31, 1949, Annie A. Schooley, in her 74th year. Resting at the Stonehouse Funeral Home in Grimsby, where funeral services will be held on Saturday at 3.30 p.m. Interment in Queen's Lawn Cemetery, Grimsby.

EL RANCHO CASABLANCA

While at El Rancho Casablanca recently, Maestro and Mrs. Thomas Mayer expressed the opinion that the Niagara Peninsula was one of the most beautiful spots they had ever seen. Mr. Mayer is a conductor with the Metropolitan Opera Company of New York City and he stated that many of the views in this area reminded him of his native South America. Other guests at El Rancho, who were from distant points, during the last week were Mr. and Mrs. James A. Strong, the Canadian Ambassador to Peru; Mr. and Mrs. W. J. Rick of Buffalo, New York; Major and Mrs. T. W. Bingle of Baltimore, Maryland; Mr. and Mrs. T. Kager, Wilmington, Del.; Mr. and Mrs. C. M. Galer of Detroit; Mr. and Mrs. Paul Mark, Miami, Florida; Mr. and Mrs. Ernest Roseman, Cleveland; Dr. and Mrs. Bryson Almsley, Leona, New Jersey; Mr. and Mrs. C. G. Fischer, Pittsburgh, Penn.; Mr. and Mrs. J. S. Lord, Montreal; Mr. G. M. Texton, Derbyshire, England; Mr. and Mrs. Maurice McClure, Newcastle, Penn.; Mr. I. Moor, Vancouver; Countess Della Anderson, New York; Michael J. Scott, Hartford, Conn.

TRINITY COUPLES' CLUB

Some thirty members of Trinity Couples' Club met at the High School grounds on Tuesday night. From there they went on a Scavenger Hunt which proved very enjoyable. Everyone finally met around a bonfire at the lake at Nelson Side Road for winners, coffee and melons.

Committee in charge of meeting were Peggy and George Bissett, Beth and Harold Kelterborn, Janet and Bob Becker, Jean and Harry France.

GREEN TREES GUESTS

Recent guests at "Green Trees" were as follows:
Mr. and Mrs. Worth Mallory, Rochester, Mich.; Mr. and Mrs. Herbert Mills, Cleveland, Ohio; Mr. and Mrs. Lawrence Snider, Greencastle, Indiana; Mr. and Mrs. W. A. Patterson, Greencastle, Indiana; Mr. and Mrs. R. L. Green, Baton Rouge, Louisiana; Mr. and Mrs. F. Fidler and daughter, Ottawa, Ont.; Mr. and Mrs. J. D. Horriches, Holland, Mich.; Mr. and Mrs. Charles Rumble, Du Bois, Pa.; Miss Mary J. Abbate, Jamestown, N.Y.; Mr. and Mrs. Alfred Bowin, Montreal; Mrs. A. E. D. Tremaine, Montreal; Mr. and Mrs. T. C. Carleton, Bethesda, Maryland; Mr. and Mrs. Carl E. Huyette, Bloomfield Hills, Mich.; Mr. and Mrs. R. S. Mackinnon, Toronto; Mr. Ronald A. Mackinnon, Toronto; Mr. and Mrs. Cecil Burmeister, Apple River, Ill.; Mr. and Mrs. Robert Gille, Warren, Ill.; Mr. and Mrs. Dennis J. Regan, Miss Catherine Regan, Milwaukee, Wis.

El Rancho Casablanca has celebrated its first anniversary, and Miss Mildred Dixon, who recently became the sole proprietor of this beautiful dining room, located in North Grimsby Township, two miles west of Grimsby, continues to amaze her ever increasing clientele with the wonderful foods served at El Rancho, and also with the furnishings for which this new establishment is famous. Miss Dixon is the possessor of one of the finest collections of antique crystal in Canada, and guests to El Rancho never fail to be enthralled by the beauty of the hundreds of pieces or artwork artistically displayed. In the top photo can be seen a very small portion of the china collection, as Miss Dixon and her former partner, Miss Ivy Stonehill sample coffee from a silver heirloom coffee pot.

They say music of a soothing nature adds to any meal, and patrons of El Rancho certainly are treated to most delightful music while they enjoy their meal, as the talented Miss Dixon, a former opera star and accomplished organist plays the Hammond organ while dinner is served. El Rancho's low ceilings make it acoustically perfect, and the strains of the organ seem to invade every corner of the building with a mellowness of tone that constantly brings praise from visitors. Miss Dixon in the bottom photo entertains a few friends, versatile in her selection of numbers, playing classical as well as the latest pop tunes.

GOINGS — COMINGS — DOINGS

Grimsby Beach

MISS MAY CRITTENDEN,
Resident Staff Correspondent.
Telephone Your News Home To Her.

Mr. and Mrs. Dan English left Wednesday for Vancouver, B.C., where they will make their home.

Mr. and Mrs. Robert Cameron of Toronto, were guests of Mr. and Mrs. A. Josa, 8th St.

Mr. and Mrs. Fred Dancer and family have moved from Park Rd. to their cottage on Rose Ave.

Mr. and Mrs. Sinclair Jarrett and daughter of Coppercliff, are visiting with the former's father, Mr. George Jarrett, Park Road.

Mr. and Mrs. Gordon Dealing of Utica, N.Y., are spending a few days with Mr. and Mrs. Bert Loneway.

Miss Owen and Bruce Loneway of Dundalk visited last week at the home of their aunt and uncle, Mr. and Mrs. Bert Loneway.

Mr. and Mrs. A. J. Hale of Edmonton, Alta., are spending a month with Mr. and Mrs. Joseph

Falby and Mrs. L. Clark.

Mrs. J. G. Ogilvie and Mr. and Mrs. George Townsend and son of Regina, Sask., are visiting at the home of Mr. and Mrs. B. H. Scott on Park Road.

Mr. and Mrs. Wilbur Jarrett and family, Sudbury, were guests at the home of Mrs. Jarrett's parents, Mr. and Mrs. J. J. Temple, Rose Ave.

Rev. and Mrs. James Maxwell of Norval, who were married on Aug. 25th, called on friends at the beach on Tuesday, on their honeymoon trip to Buffalo, Detroit and other points in Michigan.

Services in the Tabernacle Sunday at 11 a.m. Speaker, Rev. L. A. Griffith of Trinity United. This is Family Sunday under the auspices of the Sunday School. 7.30 p.m. speaker will be Rev. George Hall lately returned from China, who will tell of his experiences there.

WEST LINCOLN L.A.

On Saturday, August 20th, a successful auction sale was held on the lawn of Dr. McIntyre's house on Main Street. The sale was under the direction of Mrs. K. A. Ramsay and Miss Molly Lucas and helped with the work were Mrs. Anna Farewell, Mrs. J. Falkon, Mrs. G. Warner and Mrs. P. Fitzgerald.

The Ladies' Auxiliary is greatly indebted to Mr. Ed Mack, the auctioneer, for his time and help.

The Bake Sale was ably handled by Mrs. Wm. Wright, Mrs. T. Marquis and Miss Brown. The fancy-work table was looked after by Mrs. Gib Wade, Mrs. A. Dixon, Mrs. J. McMillan, Mrs. Hugh Campbell and Mrs. C. Bell.

There was a punch table looked after by Mrs. Betty Smith and the grape juice was very generously donated by E. D. Smith and Sons.

Mrs. Harold Matchett convened the tea held in the garden and was assisted by Mrs. Scott, Mrs. Falkon, Mrs. Don Awdie, and Mrs. Kate Crane. Mrs. Wright and Mrs. Lucas poured tea.

The monies taken in by these enterprises totalled \$340. The Auxiliary is very grateful to all those who assisted in making the day a successful one. Anyone who wishes at home for the hospital, please at home for the hospital please phone Mrs. Ramsay at 124.

HOMEMAKER'S CORNER

by Evelyn Hodge

Dear Homemakers!

Another week has passed and time for my little chat with you, so this time I want to give you some of my favourite Salad recipes.

Ham Stuffed Tomato Salad
4 tomatoes, 4 oz. cooked ham, 1 gherkin cucumber, 2 tbsp. mayonnaise, salt and pepper to taste, lettuce cups, 1 cucumber, 1 beet, celery curia. Wash tomatoes. Cut a slice from top of each and scoop out centre. Sprinkle inside of each tomato with salt and pepper. Chop ham and gherkin. Place in bowl, add mayonnaise and sufficient tomato pulp to moisten mixture. Pile into tomato cases. Place each tomato in a lettuce cup. Score the cucumber with a fork leaving the skin on. Cut into thin slices. Cut the beet into slices. Arrange alternately around the edge of individual serving plates. Place a sliced tomato in centre of the plate and garnish with celery curia.

Potato and Tomato Salad
2 1/2 cups hot tomato juice, 1 tsp. salt, 2 tbsp. vinegar, 2 cups potato salad. Dissolve 1 pkg. lemon jello in hot tomato juice. Add salt and vinegar. Set aside and when mixture begins to thicken add potato

salad. Mould and chill. Slice and serve on crisp lettuce with tomato mayonnaise.

Moulded Salad
2 tbsp. gelatine, 1/4 cup cold water, 2 cups cold chicken cut in cubes, 1/2 tsp. salt, 1/4 cup chopped celery, 1/4 cup chopped green pepper, 1/4 cup stuffed olives. Soak gelatine in cold water five minutes and dissolve over hot water. Add chicken, celery, green pepper, olives and salt. Mix mayonnaise through the mixture. Put in ring mould and chill thoroughly. Serve on bed of crisp lettuce. Decorate with olives sliced.

Salmon Salad
1 large can red salmon, 6 mod. crackers rolled fine, 1 cup diced celery, 2 large sour pickles cut fine, 3 tbsp. melted butter, 3 hard cooked eggs cut fine, salt, pepper, and mayonnaise. Mix ingredients together in order given making it a little too moist with mayonnaise as the crackers will absorb the moisture. Chill. Arrange on lettuce and garnish with slices of lemon.

Salmon, Potato and Celery Salad
1/2 lb. tin red salmon, flaked, 1 cup diced potato, 1/4 cup diced celery. Combine ingredients and add dressing. Mound on lettuce and decorate with radish roses and radish slices overlapping.

The Arctic Institute of North America was established in 1948 to encourage and co-ordinate scientific research in Canada's north.

WIENER ROAST PLANNED FOR A.Y.P.A. GROUP

An executive meeting of the Anglican Young People's Association of St. John's Anglican church was held last week at the Legion Hall, Winona. It was decided to hold another meeting shortly to discuss the plans for the tennis club, but the feeling was that playing will be left over until next spring, and then started early in the year. This will be a great disappointment to all those who looked forward to playing this season, however, most of the organizing for the club is complete, the courts are in readiness, the equipment obtained, and nothing seems in view to retard an early start next year.

A busy fall program was outlined by the group, with plans for several activities ahead. A Wiener Roast will be held on September 16 to round off the summer.

WILDLIFE CONSERVATION CLUB WILL BE FORMED IN WINONA DISTRICT

Sportmen will be interested to learn that a Fish and Wildlife Conservation Club will be organized for the district. The first meeting will be held on September 12th at 8 p.m. at Winona Legion Hall. Two representatives of the Department of Lands and Forests will be present to offer any assistance needed. Mr. William Meadows and Mrs. W. Peasmore.

Recognized by the Department of Lands and Forests, the Club will fulfill the dreams of men throughout the district who have hitherto worked alone towards this end. The Club will have right to sell licenses, previously sold by the Township Council, of which \$1054.00 worth were sold last year. These fees will do much to support the cause of the club, and it will be the aim of the club to do anything to conserve wildlife. Anyone throughout the district, and even outside this district will be welcomed as members, and it is hoped that on September 12th, there will be a good turnout.

FARM SERVICE CAMP HOLDS BENEFIT DANCE

A successful and enjoyable dance was "thrown" by the feminine populace of the Winona Farm Service Camp on Wednesday night, August 24th, in aid of the Save the Children Fund. The fund was greatly aided by the affair, as well as providing lots of fun for the crowd that filled the large "dance hall" to overflowing. It was held in the nature of a farewell dance for all the High School girls who will be saying goodbye to summer tans and peach rashes for another year, for the reason that schoolbooks will be opening very soon again. Few girls will be left in the camp which has had a most successful season, but those few will carry on as blessings to the farmers locally for some time yet.

REV. A. E. ONGLEY AT LEADERSHIP CAMP

Rev. A. E. Ongley of St. John's Church, Winona, left on Wednesday for the Niagara Leadership Camp, at Camp Owassee on the shores of Lake Erie. Also attending the session there is Sumi Metastum of Fruitland, who will represent the A.Y.P.A. of St. John's.

COMING EVENTS

The Carnival and Bazaar to be held Sept. 2nd and 3rd by the Selfless Home Owners' Association will be well worth hopping in the car and taking in. The huge Fair has been in the planning for a long time, and will offer variety to suit every taste. The Games offer many prizes anyone would want, and there are amusements for the kiddies, too. In addition to the Carnival, there will be the mammoth Fair and Bazaar, with a Home Baked Goods Sale that needs no advertising. A Needlework Sale will be of interest to women, and for everyone there will be plenty of Refreshments. Then, if you still want more entertainment, there will be a Street Dance which Frank Hogarth, Secretary of the Home Owners' Association says they put a lot of planning into organizing. The times will include Friday evening from 7.30 p.m. to 12, and on Saturday a whole day of fun from 2 p.m. until 11.30 at night. It isn't hard to find, it will be held in the Baseball park opposite Harper's Restaurant, at Fruitland. Make it a date!

Sportmen . . . Don't forget the Wildlife Conservation meeting, for September 12th, at the Legion Hall.

FRED AND GINGER ARE TEAMED IN MUSICAL

The big news of M.G.M.'s exhilarating new Technicolor musical playing at the Roxy on Sunday, Monday and Tuesday, September 4th-6th, is that it re-unites the captivating team of Fred Astaire and Ginger Rogers, whose work together grace the screen with some of its sweetest song-and-dance productions. Their re-union pictures presents them with a breezy scintillating comedy-romance which gives them plenty of opportunity to show off their undisputed talents as the outstanding dancing partners of this generation. The story casts them as Josh and Dinah, the Barkleys of the title, and a couple whose married life is as successful as their teaming on the Broadway musical-comedy stage. It is only when Dinah meets a romantic foreign playwright who encourages her to believe that she is wasting her talents in musicals and instead should be modeling her career on that of Sarah Bernhardt that a rift occurs. The undaunted Josh, however, is not without his own resources and before the picture ends he has convinced her that her place is not only beside her husband but in the realm of musical-comedy. The noted composers Harry Warren and Ira Gershwin, happily were called in to supply the words and music which fall

VINEMOUNT

A social evening and miscellaneous shower was held in the Vinemount Women's Institute hall in honour of Mr. and Mrs. Stanley Black (formerly Miss Jean Duck), of Oranville, who were recently married. Mr. and Mrs. Wm. Morrison conveyed the program of euchre and crokinole. The prize winners for euchre were Mesdames Albert Smith, Fred Walker, John Upper and Messrs. Mervin Upper, George Grosul and Connie Jacobs. Crokinole winners were Mrs. Percy Shuker, Kay Weylis, Melvin Southward and the groom, Stanley Black. After opening the many beautiful and useful gifts, both the bride and groom thanked their many friends. Mesdames Morrison, Black and Duck were in charge of refreshments. The young ladies who helped serve at the wedding reception served the more than 200 guests present.

YOUNG AMBASSADORS SWAP VISITS THANKS TO WESTON COMPANY

Fifty Canadian boys will visit Britain next summer as guests of W. Garfield Weston, Canadian-born industrialist, in a broadening of his plan, begun this year, of bringing 50 British boys to Canada.

The announcement was made here tonight by R. A. Robertson, president of George Weston Ltd., on the eve of the embarkation for England of the first group of British boys after a tour which began July 26.

Mr. Weston planned these visits to cultivate closer relationships between Canada and Great Britain, strengthening the bonds that have already existed for so many years," said Mr. Robertson.

"Now that the first one has been so successful, we feel that the idea should be extended. Next year, 50 Canadian boys will visit Britain as Mr. Weston's guests while 50 British boys again come to Canada. Like their British counterparts, the Canadian boys will represent every region of our country, at the same time composing a social and economic cross-section of our people."

In a farewell message, Mr. Robertson told the boys, "I hope you have enjoyed yourselves in Canada just as much as we have enjoyed having you here. . . You have been admirable ambassadors for Great Britain."

Referring to the fact that some of the visitors might return some day, Mr. Robertson pointed out that "Canada is still a land of opportunity for those who are alert, ambitious and willing to work for what they want."

During their tour the boys visited Montreal, Ottawa, Toronto, Niagara Falls, London and Hamilton and spent two weeks at the Y.M.C.A.'s Camp Pine Crest at Muskoka.

With ease on your ears. An additional musical highlight is pianist Oscar Levant's playing of the popular "Sabre Dance" and Tchaikovsky's Concerto in B Flat Minor. "The Barkleys of Broadway" is a superb Astaire-Rogers "welcome back" hit.

SPORTOLOGY

(By Bone Livingston, Sportologist)

TWO GRAND SPORTSMEN—Grimsby has a lot of Good Sportsmen. Has had for over half a century. But above them all, stands the one "Little Gink," I mean Hossy Shelton—"The Little Shoemaker." I therefore dedicate this wonderful editorial from The Christian Science Monitor, published in Boston, Mass., to Hossy.

Cornelius McGillicuddy, by name being what it is, might not relish being compared to a British overlord. But in the realm of baseball the reign of Connie Mack, as it that of Queen Victoria, stretches back so far into the past that the memory of fans runneth not to the contrary.

To the small fry of today, eyes glued to the neck-and-neck race between the Cards and the Dodgers and the Red Sox's stern chase of the Yankees, Connie Mack may be only an old duffer who manages a perennially second division club. But to their fathers he was pilot of the great teams of 1929 and 1930 which won the world's championship with such stars as Lefty Grove, Mickey Cochrane and Jimmy Fox.

To the grandfathers of these shallow-minded kids (who know not what they missed) Connie is also the sage who led his Athletics through their classic age (1905-1914), powered by such warriors as Chief Bender, Homerun Baker Eddie Collins and Stuffy McInnis. Great-grandfathers who around were real fans can come up with an I-remember-when: a smart catcher with the Pittsburgh Pirates of 1884 who already had 10 years of professional ball behind him. And if there be any great-grandfathers around East Brookfield, Mass., they may be able to recall a tall, slim youngster named McGillicuddy who starred behind the bat for the local champions.

Quite a record. And quite a man. New York City has just staged a three-day celebration in honor of Connie Mack's 66 years in professional baseball and his 40 as manager of the Philadelphia Athletics. It was a notable occasion and a tribute well deserved. Throughout these near seven decades Connie Mack has typified that extra something that has kept baseball in a class above the average professional sport. tag.R.—8vdHigKsofugha.h.81(omdME

SPORTRAYAL

By "HIGH" MCGREGOR

The Peach Kings softball team withered away and dropped silently from the O.A.S.A. playdowns Saturday night, as Oakville whipped the Kings thirteen to six in the third game of the series. Plenty could be said about the hapless Kings, whose spirit left plenty to be desired, and whose coaches also left plenty to think about. This would appear to be small thanks for the work Don Schwab and Ray Fisher put behind the Kings throughout the season, but even they should never expect one pitcher to hurl three games in one week and expect three wins. It is also very easy to say what we think should have transpired, however, after winning the first game handily, the brain trust of the Kings could have at least let Bouk prepare for a hurling chore here in the second, and not let Buchanan try and go the three game route. Actually the Kings have relied on Buchanan for the last three weeks, giving Bouk no chance to keep his pitching arm in shape, and more important to give Buchanan's arm a well deserved rest. It would appear now that getting as far as the second round was just too much for Doc and his partner. These guys have certainly been in softball long enough to know that one pitcher cannot shoulder the whole burden.

But it was by no means all the fault of the pitching staff. Far from it. The Kings committed ten errors in the third game, and with this kind of display deserved no better fate than they received at the hands of a team actually inferior.

However, softball fans did see some pretty fair ball here this summer, and by staying up near the top of the Fruit Bell League, and getting into the second round of the O.A.S.A. playdowns, the Kings stayed with us just a trifle longer than usual, to lessen the period of time between the downfall of the Kings of the softball nature to the more sturdy winter variety of Kings who before long should be ripping around the ice lanes of the local rinks.

This serves very nicely as an introduction to the item we dedicate to Grimsby's outstanding athlete of the summer, Donald "Red" Warren, peppery little catcher of the Firemen's Baseball team, and bubbling shortstop for the Peach Kings Softball Club. "Red" Warren has impressed many ball fans of much more ancient vintage than your columnist, having displayed a wealth of baseball knowledge in his noggin just nineteen years of age. Fingering pieces of the long green in the bank where he is a teller, "Red" comes forth several nights weekly to give his all to the two teams he has been associated with, and over the season had sparked on numerous occasions to pull games out of the fire for dear old Grimsby.

Mr. Warren is a product of Goderich where he played Midget, Juvenile and Junior C baseball starting along with his twin brother. The two Warrens made quite a name for themselves in sporting circles and were on many championship teams. When the ball season was over "Red" turned to hockey, where he again can hold down a berth very neatly. A right winger, he played the customary midget and juvenile brand, and then worked up to Junior B with Stratford, and only a residence ruling

kept him from a Junior A berth with Stratford in 1948. This then could possibly mean that young Mr. Warren may be wearing the colors of the Peach Kings this winter. Certainly we would like to see this, if for no other reason than the fact that it would save the management money having a good young player right here in town.

Transportation expenses are so high for hockey players you know. At any rate, we hope the Bank of Commerce can keep Don Warren here for a spell, he is a fine chap to have around.

A trifle late, but it took time, he-

Here we have an idea of a Fruit Bell All-Star team. Take it for what it's worth . . . we sincerely believe they are the pick of the crop.

Catcher—Dorwin Book, Smithville.
Pitcher—John Belcot, Smithville.
1st Base—Red Mason, Grimsby.
2nd Base—Eric Selby, Beamsville.
3rd Base—Joe Belcot, Smithville.
Shortstop—Red Warren, Grimsby.
Left Field—Bobby Neale, Grimsby.
Centre Field—Don Harvey, Beamsville.
Right Field—Don Riches, Grimsby.

An alternative team? Why shore:
Catcher—Dutch Konkie, Beamsville.
Pitcher—Gord Buchan, Grimsby.
1st Base—Mush Miller, Beamsville.
2nd Base—Frank Bouk, Grimsby.
3rd Base—Ted Metcalfe, Beamsville.
Short Stop—Doug Shepherd, Beamsville.
Left Field—Ron Smith, Smithville.
Centre Field—Bob Lymburner, Smithville.
Right Field—Doug Christie, Beamsville.

And, of course, for the umpire of the year, George Babluk. Oh, well, he does his best, which is as good as some of those O.A.S.A. characters, at that.

**PREPARE YOUR CHILD
FOR THE
FIRST DAY OF SCHOOL**By D. V. Currey, Director, St.
Catharines-Lincoln Health Unit

Many parents will be thinking this month of starting their children to school for the first time in September, but few parents really take proper steps to see that the child is fit for his first big adventure, because the first day of school is a big event in the life of any child. Responsibilities increase for both child and parent, but as the child does not know what should be done for him the entire responsibility for his health is in the hands of his parents.

At many schools last spring, the principal arranged for parents of the young child to register with the school. This gave the principal an opportunity of knowing for how many pupils to prepare, and gave the teachers in the junior grades an opportunity of meeting the parents. Some schools have a regular day for this, and notify the parents and children to be present. At this meeting one of the Unit health nurses was present to answer questions in regard to the child's health.

All of you realize that health is a child's greatest asset; on it depends to a great extent the length of time he will live, as well as the happiness he will derive. If people are to be healthy in adult life, parents must make sure that the child is healthy and protected against all preventable illnesses. During the summer the child should be carefully examined by the family physician and the family dentist in preparation for the arduous routine which will be his for the next several years.

Our educational system is based on a child having normal hearing and vision; a defect of either of these may be responsible for a child not making good progress at school, so the physician will pay special attention to both hearing and vision. The throat is carefully examined to make sure that the tonsils and not diseased. If they are large enough to cause difficulty in breathing, if there is a history of chronic tonsillitis, or if glands in the neck are enlarged, your physician may think it wise to have the tonsils removed. Rheumatic fever, heart disease, or joint infections often follow, periodic attacks of tonsillitis. If the child is a mouth-breather, adenoids may prevent him from growing properly, and removal may be necessary.

The heart is the most important organ of the body. It should be examined before the child starts to school, because much more strain will be put on this organ than ever before. Examination of the heart must be made carefully. If there is any defect, written instructions by the physician should be given the mother to take to the principal of the school where the work should be so regulated that no extra strain will be thrown on the child's heart.

Posture is important and if it is poor the physician should show the child how to stand and walk correctly, and the parent should make sure that the child follows out these instructions. During his school life the nervous system of a child is put to extra strain, so the physician will look for the beginning of nervous instability, which if found early may be cured. The first sign of one of those conditions is twitching of the muscles of the face or eyes. Should the parent notice this at any time the child should be taken to the family physician at once, as his whole future may depend on early recognition of early symptoms of chorea or "St. Vitus Dance."

In his examination the physician will look over the child from head to foot, and discuss with the parent whether or not the child's diet is sufficient and correct. He will discuss the question of immunization. The child starting to school comes in close contact with many other children, and because of this most of the communicable diseases are contracted during the school years. If for any reason the child has not been protected against smallpox, diphtheria, and whooping cough, then the physician should immunize him against these diseases. If the child has been previously protected re-inoculation of these preventive mediums should be given. A certificate should be received by the mother when the physician gives any immunization.

During the summer the child's teeth should be carefully checked by the family dentist who will make sure that the baby teeth are in good repair, and that the new ones coming in are properly spaced. No child should ever have a toothache, and this can be avoided if all cavities are found early and properly filled. The dentist will discuss with the parent about the six-year molar which appears just about the time the child starts to school. This is the first permanent tooth. Unfortunately few parents realize that it is not a baby tooth, and when the dentist first examines the child, six-year molars may

(Continued on Page 10)

BREVITIES

EVENTS and TOPICS of the WEEK in TABLOID

Its Fall Fair season.

Next Monday is Labor Day.

Midnight show at the Roxy Labor Day morning.

Beamsville Fair, Thursday, Friday and Saturday of next week.

All schools in the district open for the Autumn term on Tuesday next.

Merriton citizens are celebrating the 75th anniversary of incorporation this week through Labor Day.

Next Monday being a statutory holiday all places of business in Grimsby will be closed including the Bank of Commerce and the liquor stores.

Hamilton financial interests are building a new theatre in Burlington. That gives the Lakeside town two show houses. But they still have not an ice arena.

Binbrook Fair, the largest and best agricultural exhibition in Wentworth county will be held on Tuesday and Wednesday, September 13th and 14th. There is always a good time at Binbrook.

There are some great feature pictures booked for the Roxy previous to the closing up of the show house this Autumn for a great renovation program. Like Grimsby the Roxy is keeping pace with the times.

"From the ridiculous to the sublime," was the phrase applied to the phenomenon and that is just about what it was. The other day Earl (Spec) Cornwell wandered into the office with some fruit in his hands. The date was August 30th.

In his left hand he had some Concord grapes, perfectly ripe and sweet, ready for eating or canning or what have you. In his right hand were some perfectly good Montmorency cherries which were equally ripe but perhaps not so sweet. These two represent the span from one end of the fruit season to the other and Grimsby is able to produce them both in late August. Not bad!

We saw where Reg Cloughie of the firm of D. Cloughie & Son, was a successful candidate in a four day warm air heating school held from March 21 to 24 in the Kirby Hotel in Brantford. A mark of 80% was necessary for certification and the examinations covered the latest indoor comfort techniques in both gravity heating and winter air conditioning.

The Independent was in receipt of a beautiful folder post card on Monday from Grand Canyon, Arizona, sent by Mark Cooby, "The King of Smithville," who has been in California the past three weeks acting as judge at the big California Pet and Poultry exhibition. Mark, you know, is considered one of the finest judges in the world on pet and poultry stock, but like a lot of other people he is one of the prophets "not without honour save in his own country."

Mayor Clarence W. Lewis and Mrs. Lewis, who are on a month vacation and business trip to the Maritime provinces are now on Prince Edward Island. You can bet your dollars that the wheels of industry will whirl on Pictou street for the next six months making sprayers and irrigation plants to be shipped to the eastern provinces. Our Chief Magistrate is a real go-getter for Grimsby.

Another Grimsby boy has made good and is branching out in business for himself. He is Ken McGregor, second son of Adam and "Ma" McGregor, Adelaide street. Ken was taught the carpenter business by "Old Fudge" and then went to work for different Hamilton construction firms, working up to the position of foreman on some big jobs. Tiring of the city and with a keen eye to the future has moved to Hanson where he has established the Highland Lumber and Construction Co., and is already overworked with work. Good luck and much success, Ken.

DOUG AITON SIGNS

(Continued from Page 1)

University of Toronto, and upon completion of the term next spring will immediately report to the Postville club in Idaho.

Doug is currently trying to bring victory to the Grimsby Firemen, as they battle with the Caledonia outfit in the O.B.A. first round. The Independent and Doug's many friends in Grimsby will certainly wish him every success in this break for him.

Grimsby has turned out some pretty fair hockey players, but it is believed that Aiton is the first ball player ever to make headway toward a professional baseball career.

Canadians eat more than five pounds of cheese per capita every year.

BIRTHDAY PARTY AT HOME FOR THE BLIND

Party drew was the style last Friday evening when the residents and staff of Linwell hall, St. Catharines, gathered in the living room to celebrate the first anniversary of residence there.

During the past year, 23 blind men and women have enjoyed the comfort and convenience of living at Linwell Hall, the local residence social and service centre of the Canadian National Institute for the Blind, which serves almost 250 blind persons in Lincoln, Welland and Haldimand counties.

During the evening each guest contributed to the program with music, recitation or by expressing their appreciation of the opportunity of living in the building. All were in accord that the matron, Mrs. A. Stewart and her staff were to a great extent responsible for their happiness and welfare and they expressed to Mrs. Stewart sincere thanks and appreciation.

Mr. M. A. Knechtel, field secretary of the C.N.I.B. spoke briefly, outlining the history and development of Linwell Hall and praised the efforts of the many people in the Niagara Peninsula who made it possible for Linwell Hall to materialize and complete such a successful first year. The evening was climaxed by the serving of an appropriate birthday cake and other refreshments.

BEAMSVILLE FAIR

(Continued from Page 1)

will be carried out by Inspectors of the Department of Agriculture. A special tent has been set aside for this event, which also includes a demonstration of the use of new types of packages for Niagara's famous fruit.

One hundred dollars in prizes have also been set up for growers who wish to compete their peaches against those of others, who may come from a different region. This should be interesting, if a peach grown on the sand competes with those from higher ground. Always good for an argument, "high ground" growers maintain their peaches have a better flavor than those from the sand. This should be decided once and for all at the Fair.

There will be a display of the latest in farm machinery, new cars, trucks and tractors, and washing machines that Mom would love to take back to her home with her. Yes, this is all part of the great fair, which is a part of our democracy—just as will be the giant midway, which is bigger and better than ever before. So step right up, ladies and gentlemen, it's fall fair time. You can't forget those dates at Beamsville, September 8th, 9th and 10th. The Beamsville Fair like all its cousins, a show window of democracy and peace.

MIDNIGHT SHOW AT THE ROXY LABOR DAY

The Roxy Theatre is ushering in Labor Day with a Midnight Show on Sunday, September 4th, at 12.05 a.m., with the presentation of the widely acclaimed "Barkleys of Broadway." This grand Technicolor musical reunites on the screen Fred Astaire and Ginger Rogers, together again and more wonderful than ever. Don't miss this splendid entertainment for a good start to a happy holiday.

OBITUARY

ANNIE A. SCHOOLEY

The passing at her home in North Grimsby Township of Annie A. Deon, beloved wife of the late George A. Schooley, on Wednesday, August 31, 1949, will be deeply regretted by her many friends and acquaintances. Mrs. Schooley was born in Welland, Ont., on December 2, 1875, and was in her 74th year. She lived in Western Canada for some 34 years from whence she moved to the Grimsby district where she has lived during the last five years.

Mrs. Schooley is survived by her son, John F. Schooley, two grandchildren and one great grandchild. The remains are resting at the Stonehouse Funeral Home in Grimsby where services, conducted by the Rev. A. L. Griffith of Grimsby, will be held on Saturday afternoon at 3.30 p.m.

LINCOLN AND WELLAND

(Continued from Page 1)

This was a vital action since it was the final step in clearing the approach to the Port of Antwerp, which was so necessary to the supply lines of the Allied Armies.

The first event at the reunion will be a dinner to be held on Saturday evening which will be followed on Sunday by a Church Parade. This latter will include all members of the unit as well as those of the present Battalion. The Regimental Colors will be deposited in St. George's Church after which there will be a march past along St. Paul Street.

For further details of the reunion and the newly formed association Linc. and Well. vets should watch the papers and listen to their radios.

The Lincoln and Welland was first formed in 1934 and the last Company in Grimsby was the old B Co. which was closed out in 1938. At one time Grimsby was headquarters for the fourth regiment of the Old Lincoln and Welland which then consisted of some five regiments. It is believed that subject to the approval of Central Command a Company of the Lincoln and Welland will again be placed in this town.

SEPTEMBER OPENING

(Continued from Page 1)
vegetables, which were placed in the cold storage plant for use this winter.

Mr. Globe said that in all probability, a public notice giving the date of the opening and the order of program would be published in district papers within the next week or so.

READY FOR SCHOOL

(Continued from Page 9)
be so decayed that they must be extracted. When this happens the whole structure of the child's jaw is changed and damage is done which is almost impossible to repair.

If your child is going to school for the first time this fall, make sure he is carefully examined by your physician, your dentist, and that he has had his immunizations. At many centres throughout the whole of the county the St. Catharines-Lincoln Health Unit provides a physician for the Child Health Centres. If your child cannot be examined by your family physician he may be taken to one of the centres where a medical officer from the Unit will give him his pre-school examination and make sure he receives the necessary immunizations or re-informing doses.

The first strike in recorded history was that of the plebeians (common people) against the patricians in ancient Rome, about 494 B.C.

Eggs should be packed with the pointed end down because there's an air cell at the rounded end which is more likely to be broken if that end is down.
